

MUHAMMAD TAHA ZUBAIR

SOFTWARE DEVELOPER

DETAILS

EMAIL

muhammadzubi318@gmail.com

PHONE

+923071469318

LOCATION

Islamabad, Pakistan

International Islamic University

SKILLS

- Object-Oriented Design
- Problem Solving
- Agile Methodologies
- Data Structures & Algorithms
- Database Fundamentals
- Object Oriented Programming
- Debugging
- C++, Python
- HTML, CSS, JavaScript

LANGUAGES

English - Professional

Urdu - Native

Punjabi - Native

SUMMARY

Motivated Computer Science student with knowledge of Python, C++, Data Structures, Algorithms, and Digital Logic Design. Strong problem-solving and analytical skills with a passion for software development and artificial intelligence. Eager to apply technical knowledge through projects, internships, and continuous learning.

EDUCATION

BS in Computer Science

International Islamic University, Islamabad | Aug 2024 — Current

FSc in Pre Medical

Punjab College Bhalwal, Bhalwal | Aug 2021 — Jun 2024

ACADEMIC PROJECTS

Data Structures & Algorithms Implementations

C++ Development

Developed fundamental data structures from scratch in C++, including Linked Lists and Graphs. Implemented and optimized various sorting algorithms to enhance application performance and solidify understanding of memory management and time/space complexities.

Network Topology Design & Simulation

Cisco Packet Tracer

Architected and simulated a functional enterprise network topology using Cisco Packet Tracer. Configured switches, routers, and network infrastructure to demonstrate practical understanding of network protocols, subnets, and communication routing.

Full-Stack Web Foundations

HTML / CSS / JavaScript

Built interactive and responsive web layouts to demonstrate proficiency in front-end development. Utilized HTML for structural semantics, CSS for modern styling, and JavaScript for DOM manipulation and dynamic user interactions.
